How We Can Care For You

Care Services

Care that helps our patients live with independence, purpose, and dignity—that's the Compassus difference. Whether you or your loved one are in need of end-of-life care, medical care during recovery from a serious illness, or in-home IV therapy, our Medicare-certified services can help improve quality of life.

Infusion Therapy

Palliative Care

Support And Collaboration

Patients

We partner with caregivers and family members to coordinate care that meets the patient's needs and ensures quality of life at every turn. Grief support and respite services are available to help caregivers during this time as well.

Improving Outcomes

Providers

Compassus is here to collaboratively work to help manage patient conditions and meet goals of care alongside referring providers. From help determining eligibility for hospice or home health care, to support for healthcare professionals as they navigate end-of-life conversations with patients, Compassus is here to collaborate with doctors to provide seamless and personalized service for patients.

Innovative Solutions

Partners

We partner with health systems, hospitals, and long-term care partners with a clear focus on improving outcomes for our patients and our health care partners. This is the foundation of our care, and these partnerships allow us to provide innovative solutions and improve quality of care.
